## PHILOSOPHY

I am a dynamic and energetic art teacher and third-culture kid with twenty-two years of experience. I honor creative independence and artistic confidence. My classroom is alive with self-motivation, fun and deep thinking. I am actively involved in all areas of school, including curriculum development, teacher mentoring and community service. I combine a strong passion for art and the creative process to inspire and challenge children to find personal success in a learning environment supportive of multiple learning styles. I encourage exploration and inquiry while maintaining a high level of artistic achievement. I am a self-motivated leader with excellent communication and interpersonal skills. I foster flexibility, consistency and joy within myself and within my community.
